Latin American Adult Vaccination Advocacy Summit

9-10 April 2016

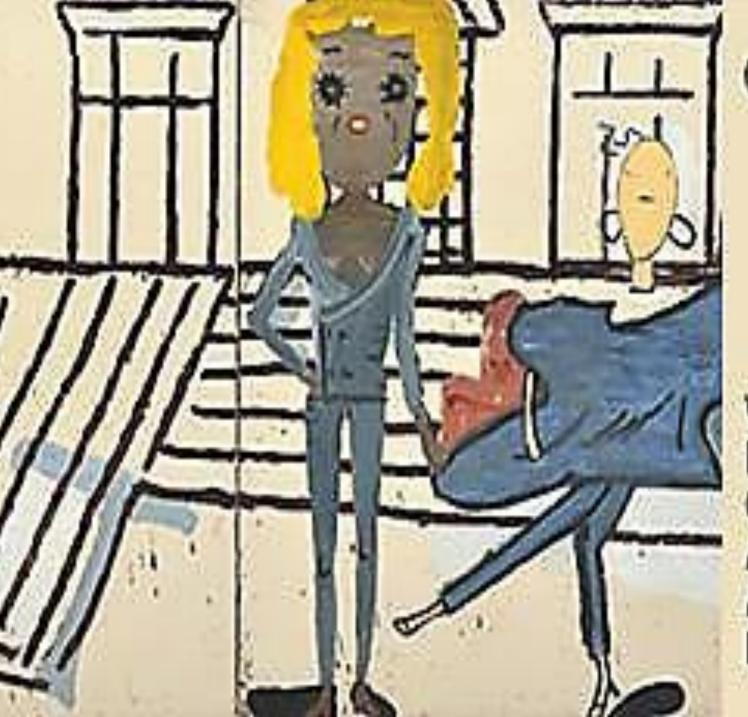

Burden of disease in older people and implications for health policy and practice

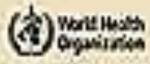

Ageism

Poor preparedness of health systems
Misplaced global health priorities
Complexity of integrating care for complex
Dilications for health

2.5%

Prince, M. *et al*. The burden of disease in older people and implications for health policy and practice. *Lancet*. 2015;385;549-62.

WORLD REPORT ON AGEING AND HEALTH World Health Organization, Ageing and Health Strategic Objectives 2016-2020

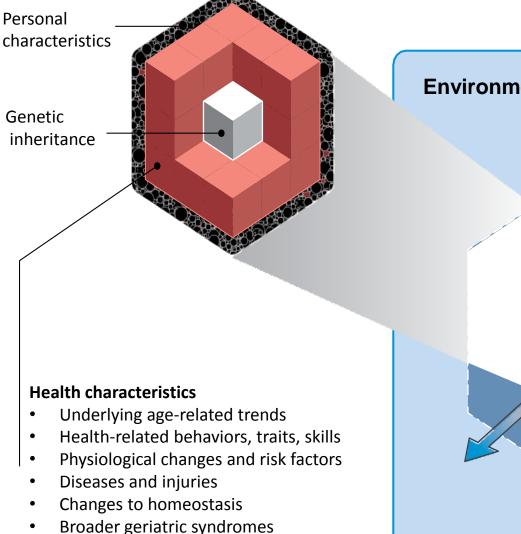

1. Fostering healthy ageing in every country

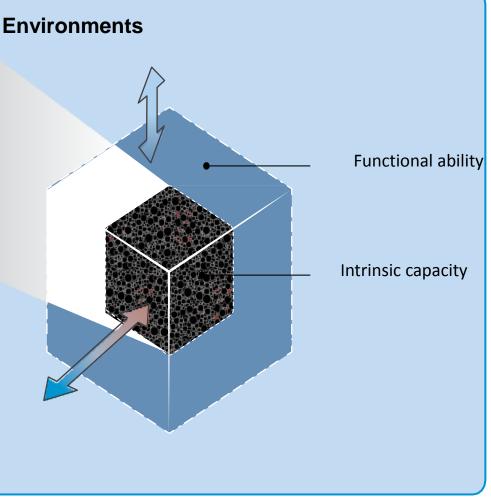

- 2. Aligning health systems to the needs of older populations
- 3. Developing long-term care systems
- 4. Creating age-friendly environments
- 5. Improving measuring, monitoring and understanding

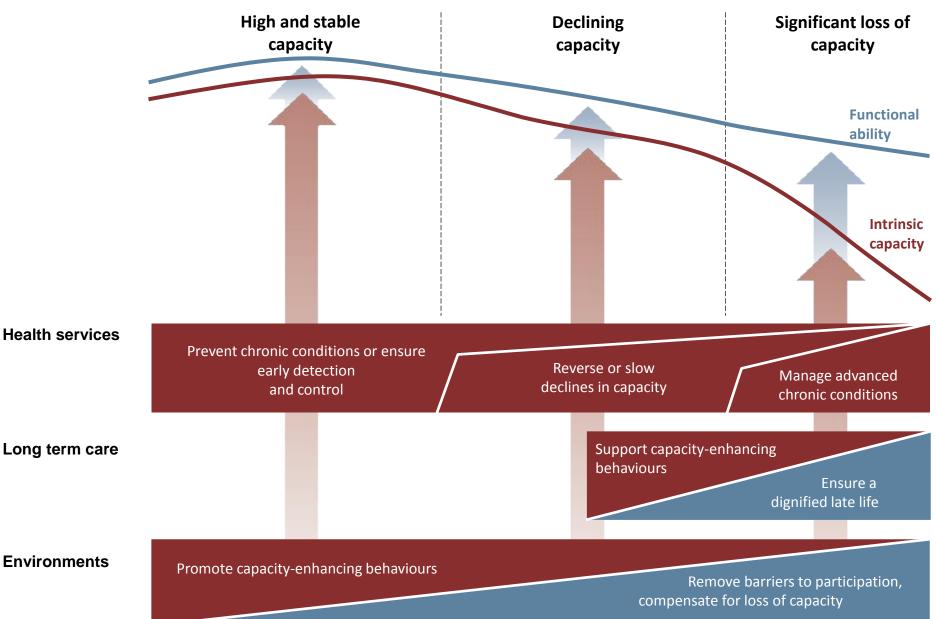

## **Healthy Ageing**

## Public-health framework for healthy ageing Opportunities for public-health action across the life course

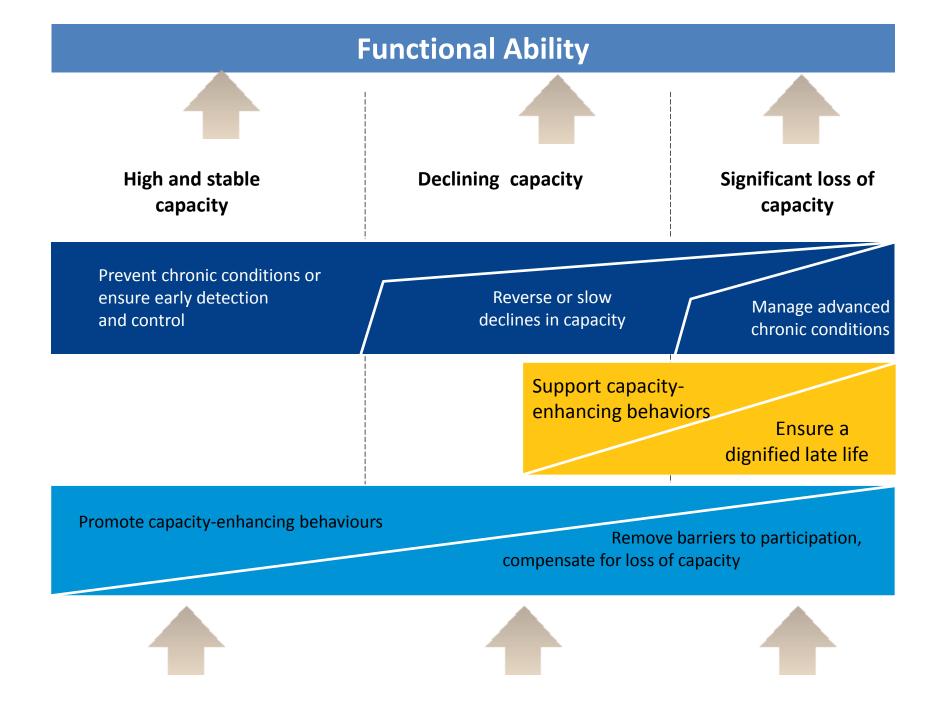

"As a relatively healthy person who has never had respiratory problems, I never thought I was at risk from pneumonia." *Catherine 66* 

## **Return on investment**

Investment	Benefits	Return
Health systems	Health	Individual well-being
Long-term care systems	Skills and knowledge	Workforce participation
l Lifelong learning	Mobility	Consumption
Age-friendly	Social connectivity	Entrepreneurship and investment
	Financial security	
Social protection		Innovation
	Personal dignity, safety and security	Social and cultural contribution

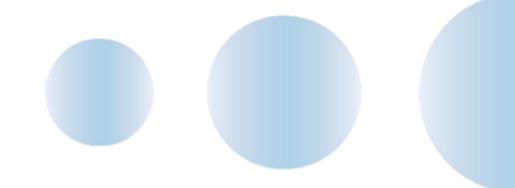

Social cohesion
